

80.08

For unknown reasons, you find yourself trapped in a representation of your mind. As a prisoner, you are required to complete certain tasks to keep your sanity. Inside this cell, however, nothing is what it seems and confusion is your natural state...

50.05

User Interface

1. Visual Profile
Enables/Disables visual effects

2. Symbol Translator
If active, reveals hidden symbols when you interact with some Beings (not available everywhere)

3. Help
Allows you to escape from some cages (not available everywhere)

4. Restart

5. Selection Screen

6. Quit

General Instructions

1. W/S/A/D to move.
2. Right click to Focus Vision/Free Vision.
3. When Focused, left click to Interact.
4. To open/close the User Interface, press 'Esc'.

The 'Symbol Translator' and can be found in the middle of the upper left side of the screen, next to the 'Visual Profile' button.

When activated, the Symbol Translator will display on the lower left corner of the screen the hidden symbol 'inside' an interactive object. For instance, you could approach one of the Beings and left click one of its interactive objects to learn what symbol is hidden inside of it. Although the Symbol Translator is not necessary to learn the symbols of all the Beings (there are clues in the Main Hub and inside the Manual), it could be very helpful in case you are missing some data.

The 'Help' button is located next to the Symbol Translator and it's designed to help you 'skip' some of the Cage-Beings. When you encounter one of these challenges, check if the Help button is active and then click it to enable the Help Process.

Warning: Don't read the following page unless it's necessary.

Captor's scream?
